SAFEGUARDING OUR ELECTION DISCUSSION GUIDE

Watch the Safeguarding Our Election video in the Citizens Clean Elections Commission Voter Education Series, then use the following questions to discuss Arizona's election security measures.

→ What is a decentralized election system? How does this help with election security?

→ What are the four main pillars of election security? Do you consider one pillar more important than the others?

→ Why do you think the voter registration database has so many safeguards in place?

→ What is the difference in how counties verify ID when voting by mail and in person?

→ Which security measure during an election makes you feel most secure about voting? Why?

→ Why do you think it is important for members of different political parties to be present when testing voting equipment?

→ Have you or would you watch the live video feed of ballots in a secure tabulation room? Why or why not?

→ What are some ways counties ensure the physical security of ballots post-election?

→ How can mis and disinformation threaten election security? What steps can you take to be aware of mis and disinformation?

→ Are tabulation machines connected to the internet?
